

Southern Riverina Sheep Breeders

Which system is more profitable; sheep, cattle or crop?

Friday June 20 2014 - 8:00 am to 3:30 pm

Independent livestock consultant, San Jolly, Productive Nutrition Pty Ltd, will discuss the relevant issues, demonstrate each system and answer your questions, including:

- Identifying the key profit drivers for each system*
- Scanning to marking – what is going on with lamb losses?*

San is an enthusiastic presenter with a wealth of knowledge in the specialised areas of livestock nutrition, health, welfare and management, including pastoral nutrition, mixed farming and intensive feeding systems.
